

AI ADS (TM) - Platform Architecture & Feature Documentation

Version: 3.5.0 Enterprise
Platform Name: AI ADS (TM) Autonomous Content Intelligence & 8K Creative Studio
Target Audience: Enterprise Marketing Teams, Digital Agencies, Brand Managers

EXECUTIVE SUMMARY

AI ADS (TM) is an all-in-one, enterprise-grade governed artificial intelligence content creation and multi-channel publishing platform. By combining multi-tenant Brand DNA memory, an autonomous 2-Agent Vision Architecture, 30-Day Campaign Strategy Generation, photorealistic 8K visual ad rendering, and an AI Landing Page Generator, AI ADS (TM) enables marketing teams to scale content velocity up to 10x faster while eliminating brand voice drift.

CORE PLATFORM MODULES & FEATURES

- 01. Brand DNA Memory & Scraper (/brand-dna)
Auto-scrapes website URLs to ingest logos, hex color palettes, positioning, and verified claims into immutable AI memory for 100% brand voice alignment.
- 02. 30-Day Strategy Roadmap Engine (/strategy)
Synthesizes 30 non-repeating daily social post directives for Instagram, LinkedIn, X, and Facebook with reference photo photoshoot directive analysis.
- 03. Creative Studio & 2-Agent Vision Pipeline (/creative-studio)
2-Agent Vision Pipeline (Prompt Crafting Agent + Image Generation Agent) rendering photorealistic 8K ad visuals with automatic brand logo watermarking and GCS signed URL exports.
- 04. Content Studio & Carousel Builder (/content-studio)
Drafts Instagram carousels, LinkedIn slide decks, viral X threads, Facebook ad copy, and long-form blog posts with 1-click copy repurposing.
- 05. AI Website & Landing Page Builder (/website-builder)
Prompt-driven responsive landing page builder with live visual code editor, responsive previews, and downloadable HTML/CSS ZIP packages.
- 06. SEO Intelligence & JSON-LD Briefs (/seo-intelligence)
Search intent keyword analysis, competitive SERP audits, and structured Schema.org JSON-LD schema markup generation.
- 07. Omnichannel Publishing Calendar (/calendar)
Interactive drag-and-drop calendar grid to schedule multi-channel campaign posts at peak engagement hours with live feed previews.
- 08. Approvals Desk & Governance (/approvals-desk)
Human-in-the-loop review queue for digital agencies and clients with brand claim verification checks and RBAC role permissions.
- 09. Embedded AISA (TM) AI Copilot (Global Drawer)
Floating 24/7 AI chat assistant trained on marketing workflows for instant strategy advice, prompt refining, and direct module triggers.
- 10. Analytics & Velocity Hub (/analytics)
Performance tracking dashboard monitoring content velocity metrics (400% Gain), credit usage, and agency production ROI.
- 11. Team RBAC Management (/team-rbac)
4 granular user roles (Super Admin, Agency Admin, Creator, Client) with cryptographically isolated multi-tenant client workspaces.
- 12. Settings & Transparent INR Billing (/settings-billing)
Transparent INR subscription plans starting at Rs 799/mo with automatic credit rollover and custom API integration keys.

TRANSPARENT INR SUBSCRIPTION PLANS

- Starter Suite: Rs 799 / mo (Rs 639 Yearly) | 50 Credits/mo, 1 Workspace, 30-Day Strategy
- Growth Agency: Rs 2,499 / mo (Rs 1,999 Yearly) | 250 Credits/mo, 5 Workspaces, 8K Studio, AI Web Builder
- Enterprise Scale: Rs 6,999 / mo (Rs 5,599 Yearly) | 1000 Credits/mo, Unlimited Workspaces, Custom API
